

Tech Starts Here.

Put Your Students on the Pathway to a Thriving Tech Career

Microsoft
Technology Associate

Microsoft® makes it easier for you to build and deliver technology education with a simple and affordable suite of entry-level technology certifications.

Enhance Your Technology Curriculum

- **Official credentials designed by Microsoft** — Stand out as an innovative educator by using exams created by industry experts on the most widely used and recognized technologies in the world such as Microsoft Windows®, Microsoft Visual Studio® and Microsoft SQL Server®.
- **Cost Effective** — Share a single MTA Campus License among all departments and programs within your campus. Administer MTA exams for a fraction of the cost of other technology certification exams.
- **Preparing for the future** — Help your students become more competitive. MTA is the first step towards more advanced certifications, which will help your students secure their value in the job market.

Help students explore their potential and passions while preparing them for information technology education and careers

- **Careers**—MTA certification differentiates students as prepared to start applying themselves in entry level technology jobs such as apprenticeships and internships.
- **Confidence**—Industry-recognized credentials inspire confidence as students pursue future college and career aspirations.
- **Completion**—Certified students complete their academic studies with statistically higher grades, lower dropout rates, and decreased school absences².

"I love the MTA program. I have been teaching Microsoft Certification classes to high school students for 14 years and the MTA program is the most relevant that I have ever seen. It prepares students not only for Industry, but for future Microsoft exams as well."

Allan
Teacher
Marshall Academy

"No matter what degree you chose or road you choose to travel, everything has become digital so you will need fundamental technology skills at every point in your life."

Deloris
Technology Specialist
College Connection

Encourage.

Preparing And Motivating Tomorrow's Technology Workforce

Designed by Microsoft Learning experts and professional educators and based on high-demand industry career tracks, Microsoft Technology Associate (MTA) enables educators to teach and validate fundamental technology concepts, providing students with the confidence to succeed with more advanced studies as well as a solid foundation for their careers. Help your institution stand out with an innovative technology curriculum while offering students an opportunity to earn a Microsoft certification right in the classroom.

MTA Campus License

The MTA Campus License includes the full portfolio of MTA exams and the highly acclaimed companion MTA Certification Exam Review Kits, which are designed to supplement the courseware you're already using.

Add Value To Your Classroom With Secure, Easy-To-Use, Relevant Exams.

You can deliver exams anywhere on campus anytime it's convenient. All you need is an internet-connected computer and administrative rights. Set up is quick and simple with free on-boarding support available at any time. Exam scores can be imported into Microsoft Excel and uploaded into popular Learning Management Systems.
